HOW TO BUY YSAU AND YSAG

Texas Precious Metals is the sole custodian for the Y'all Street Physical Gold ETF (YSAU) and the Y'all Street Physical Silver ETF (YSAG), meaning TPM holds and safe-keeps the physical metal.

WHAT THEY ARE

YSAU and YSAG are a simple way to own real gold and silver through your brokerage or retirement account while maintaining the confidence that comes with Texas Precious Metals safekeeping your assets. The funds are made up of fully allocated gold and silver bars from trusted members of the LBMA good delivery list.

Each share of YSAU is backed by 1/100th of an ounce of gold.

Each share of YSAG is backed by 1 ounce of silver.

HOW TO BUY THEM

You can buy the Y'all Street Physical Gold and Silver ETFs anywhere you buy stocks, using these two tickers:

- YSAU for gold
- YSAG for silver

THEY WORK IN NEARLY ANY ACCOUNT YOU MAY HAVE:

- Brokerage accounts
- IRAs (traditional and Roth)
- Self-directed 401(k)s
- Personal accounts like Fidelity, Schwab, E*Trade, Robinhood, and others

To place the order yourself, log into your account, type in the ticker (YSAU or YSAG), enter how many shares you want, and submit the order.

A FEW TIPS FOR BUYING THROUGH A BROKERAGE

- Make sure the cash is already in your account before you buy.
- Buy during market hours, 8:30 a.m. to 3:00 p.m. Central on weekdays. You can only place a regular buy or sell while the market is open. Keep in mind the value of gold and silver moves around the clock, so the price can open higher or lower than where it closed.
- Type the ticker exactly. YSAU is gold, YSAG is silver. Both trade on the NASDAQ.
- You can buy as little as a single share or as much as you like.

ORDER THROUGH YOUR WEALTH MANAGER OR FINANCIAL ADVISOR

If you have a wealth manager or financial advisor, you can request that they buy the shares on your behalf. Just call them, tell them you would like to buy YSAU or YSAG and how much, and they will take care of the rest. They can hold it right alongside the rest of your investments.

IMPORTANT DISCLOSURES

This material must be preceded or accompanied by a prospectus. Before investing, investors should read the prospectus carefully for more complete information about the Funds, including investment objectives, risks, charges, and expenses. Click here for YSAU or YSAG.

Investing involves risk, including possible loss of principal. The funds are subject to risks including, but not limited to, fluctuations in the price of gold and silver, market risk, custodial and storage risks, the risk that the funds may not track the price of the underlying metal, and the risks of a fund with limited or no operating history. Past performance does not guarantee future results.

The Funds are not registered investment companies under the Investment Company Act of 1940 and are not commodity pools under the Commodity Exchange Act. As a result, investors will not receive the protections associated with ownership of shares in a registered investment company or interests in a CFTC-regulated commodity pool. The value of each Share is directly related to the price of physical silver or gold, as applicable, less Fund expenses. Silver and gold prices can be highly volatile and may be affected by supply and demand, interest rates, inflation expectations, currency movements, geopolitical events, central bank or governmental activity, investment and trading activity, and broader economic or market conditions. ETF shares trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the Fund's net asset value. Brokerage commissions and ETF expenses will reduce returns.

Teucrium Asset Management, LLC is the sponsor for YSAG and YSAU. PINE Distributors LLC is the Marketing Agent for YSAG and YSAU and is not affiliated with Texas Precious Metals, Teucrium Asset Management, LLC, or Y'all Street Asset Management.
